Once you have familiarized yourself with the Good Neighbor Practices feel free to review the Community Standards By-laws below to determine if this is something the Calgary Police Service need to be involved with or would it better be served by the City of Calgary By-Law Services. They can be contacted at 311.

Once you have reviewed both links hopefully it will help answer some questions you had and better help steer us or By-law in the right direction. If you feel there is some suspicious activity with a home near you, calgarycrimestoppers.org is a great service that allows you to report anonymously.
